Fijaciones *Fixing material*

Nuestras abrazaderas Famatel ofrecen una amplia gama de medidas, lo que permite seleccionar el modelo idóneo para cualquier instalación. Su diseño ofrece una alta resistencia al impacto, manteniendo la máxima seguridad en los elementos a fijar. Fabricadas en acero cincado blanco o en poliamida su diseño garantiza una perfecta fijación de tubos de agua, electricidad, calefacción, neumática, aire acondicionado, etc.

Famatel offers a wide range of fixing material which allows to select the perfect type for each installation. Its design together with the zincked steel or polyamide materials used for its production provides a high resistance to the impact ensuring the maximum security in the elements to be installed; water tubes, cables, air conditioning, heater...

VENTAJAS / ADVANTAGES

- > Rapidez y facilidad de instalación.
- > Máxima seguridad en el cierre.
- > Fabricadas en acero cincado blanco o poliamida.
- > Grapillones con clavo de acero templado.

- > Fast and easy installation.
- > Maximum safety closing system.
- > Made of soft zincked steel or polyamide.
- > Staples made of tempered steel.
